

# HELP EDUCATE THE COMPETITION!

## Amazon workers

in Minnesota do much the same work that we do here at UPS. They work inside sorting, loading trucks and they are even beginning to deliver their own packages. They do all that under intense pressure to produce, for minimal wages, and with poor to no options for retirement or health care. They lack all that we have fought hard for and won here.

## Teamsters Local 638

is working with Local 120, the IBT, community groups and activist workers at Amazon to demand Amazon do the right thing for their workers. We are helping Amazon workers to circulate petitions, participate in protests and to educate them on their rights to act collectively. Amazon works hard to squelch any talk at work, so it's critical that we talk to these workers at their homes or on the phone.

# WE NEED **YOUR** HELP!

## UPS Workers

are in the best position to talk to Amazon workers about what can be won if they come together. We're asking for some of you to come out and volunteer a few hours of your time to help your fellow workers learn how to earn a better life for themselves, which will help improve standards in the package industry. All volunteers will be paired with an experienced organizer who will drive and pay for lunch.

**FRI-SUN JULY 12TH-14TH 9AM-6PM**

Anyone who can spare at least a few hours one of those days is appreciated.
